Agenda

- Installing the Tutor plugin (Free Version)
- Creating a course
- Creating two products
- Changing the menu
- Adding a Webhook
- Creating three n8n workflows
 - Registration, Drip Campaign, and Unsubscribe

Installing the Tutor plugin (Free Version)

1. In the WordPress dashboard click on plugins
2. Click on the Add Plugin button at the top
3. Search for Tutor
4. Select the Tutor plugin and click on Install Now

**Tutor LMS – eLearning and
online course solution**

A complete WordPress LMS plugin to
create any eLearning website easily.

By Themeum

Create Two Courses (One Free and One Paid)

1. In the WordPress dashboard go to Tutor LMS – Courses
2. Click the Create Course button
3. Give your course a name and a description
4. On the right panel add a Featured Image
5. Scroll down and indicate if it is a paid or free course
6. Click the Update button in the top right corner
7. Click on the Preview icon next to the Update button and check the new menu items

Privacy Policy

Add the Course Documents

8. Go back to the WordPress dashboard. Then click Tutor – Courses and open one of your courses
9. Click on Curriculum at the top of the page
10. Click on + New Lesson.
11. Give your lesson a name and a description
12. On the right panel, scroll down and add the documents in Exercise Files (once your course material is created). You can add any files to test the functionality for now.
13. Click the X at the top to go back to the previous screen, and click Preview

Review Your Course Content

14. On the course page, scroll down to the bottom to see the course content

15. Click on the document

16. On the next page, click on Exercise Files to see the files to download

The screenshot displays a web interface for a course titled "Master n8n Workflow Integration (Free Course Outline)". The interface is divided into several sections:

- Course Content:** A sidebar on the left with a "Free Download" button (1/1) and a "Document" link marked with a green checkmark.
- Header:** A blue bar at the top showing the course title, a back arrow, and progress: "Your Progress: 1 of 1 (100%)".
- Navigation:** Two tabs, "Overview" and "Exercise Files", with "Exercise Files" being the active tab.
- Exercise Files:** A section containing a file named "Course Logitics.pptx" with a size of "12.35 MB" and a download icon.

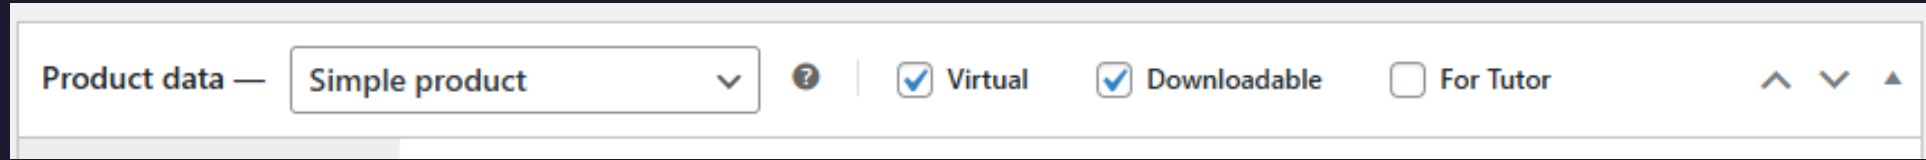

Setting the Course Monetization

17. In the WordPress dashboard, go to Tutor – monetization and select the following items:

Automatically Complete WooCommerce Orders If enabled, in the case of Courses, WooCommerce Orders will get the "Completed" status .	☒
Auto Redirect to Courses When a user's WooCommerce order is auto-completed, they will be redirected to enrolled courses	☒
Enable Guest Mode Allow customers to place orders without an account.	☒
Revenue Sharing	
Enable Revenue Sharing Allow revenue generated from selling courses to be shared with course creators.	☐

Creating two Products

1. In the WordPress dashboard, go to Products – All Products

2. Add a new product to provide the free course outline.

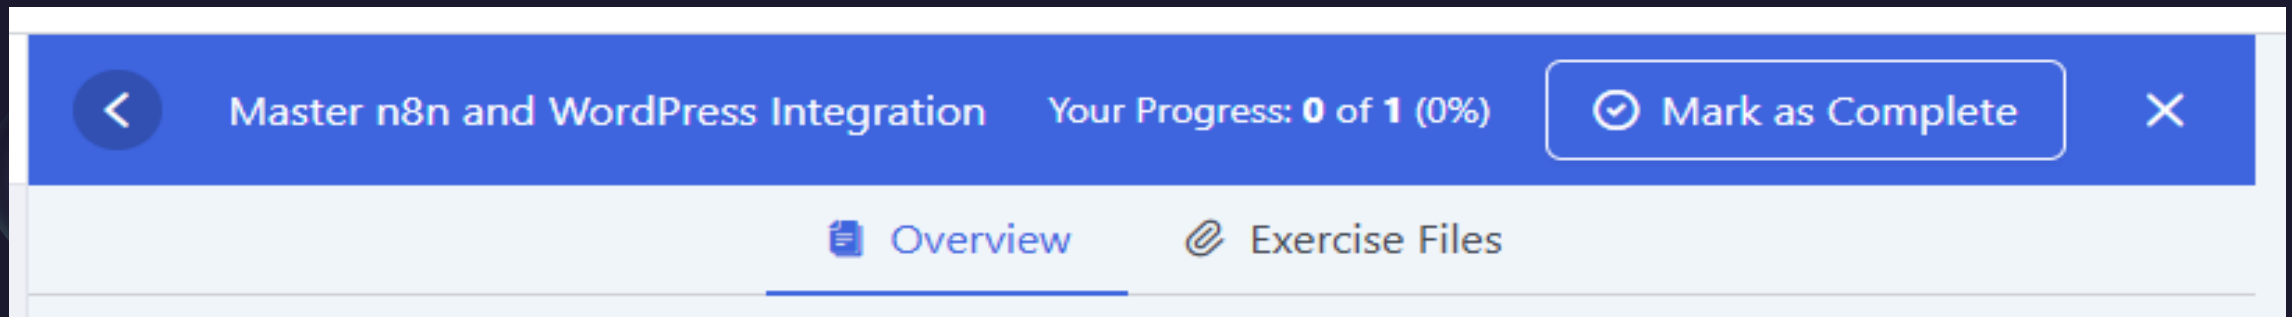

- Give a name to your product and set it to Simple product, Virtual, and Downloadable
- Scroll down and set the price to \$ 0
- On the right panel, add a product image
- Scroll up and click on the Update button
- Set the status to Published

3. Add a second product for your course

4. Your products should appear at the bottom of the main page

Now Link Your Course to Your Products

5. In the WordPress dashboard, go to Tutor – Courses
6. Open one of your courses
7. On the right panel, select Paid (you do this for both products, even the free one)
8. In the drop-down list that appears just below, select your product
9. Now, when you click on a course you enrolled for, you will be redirected to the page where you can download the files

Removing Menu Items You Don't Need

1. On the WordPress dashboard, click **Appearances – Menu**
2. In the menu structure, add the menu name **Main Menu**
- 3 In the left panel, click on the menu items that you want to add to the main menu
4. Then click **Add to Menu**
5. Scroll down and select the following menu option settings
6. Save the menu
7. Review the menu on the **Main page**

Menu Settings

Auto add pages	☒ Automatically add new top-level pages to this menu
Display location	☒ Primary Menu
	☐ Secondary Menu
	☒ Off-Canvas Menu
	☐ Logged In Account Menu
	☐ Footer Menu

Create a New Menu Item

[Courses](#)

[Course Enrolment](#) ▼

[Dashboard](#)

[Home](#)

[Privacy Policy](#)

8. From the WordPress dashboard, go to
Appearance – Menus

9. In the left panel, click on the custom link

- URL: just put a #
- Link Text: Course Enrollment
- Click on the Add to menu button
- On the right panel, click and drag the new menu item to the correct location

Add Product Sub-menus

10. Add another custom link. However, this time use the product permalink URL. You can get it from your product page.

- However, be careful as sometimes the URL gets truncated with ... If this happens, click on the Edit button and replace the end of the URL with the permalink

11. Add the URL

12. Name the Link Text the same as your product name.

13. Click the Add to menu item

14. Drag the menu to be under the Course Enrollment menu

15. Then click the course menu item and drag it to the right. This will make it a sub-menu

Test – Test - Test

- Click on the Course menu item, then click on the product and test all the buttons before. Do this before buying the products, and after buying the products.
- Test the Course Enrollment menu. Click on a submenu to see if it takes you to the product purchasing page.
- Test this again using a incognito mode (ctrl+shift+n).

Next Module – Integration with n8n

- **Create a Registration Workflow**
- **Create a Drip Campaign Workflow**
- **Create an Unsubscribe Workflow**

The image features a dark blue background with a futuristic, digital aesthetic. Several glowing question marks in shades of blue and purple are scattered across the scene, some appearing to float in the air. In the foreground, there are faint, glowing lines and patterns that resemble a circuit board or a data network. The text "AI QUESTIONS" is prominently displayed in the center in a bold, white, sans-serif font.

AI QUESTIONS
